

ASIAN PEAR POLLINATION CHART

Varieties	Pollinators	Yakumo	Shinsui	Shinseiki	Hosui	Nijesseiki	Chojuro	Yoinashi	Shinko	Korean Giant	Seckel		
Yakumo			+	+		+	+	+					
Shinsui		+			+			+					
Shinseiki				0									
Hosui		+	+	+		+		+		+			
Nijesseiki						0							
Chojuro		+	+	+	+	+		+					
Yoinashi		+	+	+	+	+			+	+	+		
Shinko				+	+	+		+			+		
Korean Giant			+	+	+	+	+	+					

0 = Self fertile

+ = Successful cross pollination

Most Asian pears cross pollinate with each other to some degree, the above chart lists the best combinations for optimum fruit set. Nijeseiki and Shinseiki are self-fruitful. Asian pears can also be pollinated by early blooming European pears; such as Seckel, Ubileen and Highland
