

PLUM POLLINATION CHART

Varieties	Pollinators	Methley	Satsuma	Beauty	Shiro	Toka	Green Gage	Stanley	Italian	Seneca	Blue Damson	Golden Nectar	Flavor Supreme Pluot
Methley		0											
Satsuma		+		+	+	+							
Beauty – Partially Self fertile		+		0	+	+							
Shiro					0								
Toka						0							
Green Gage							0						
Stanley								0					
Italian									0				
Seneca							+	+	+		+	+	
Blue Damson											0		
Golden Nectar		+	+	+	+	+							+
Flavor Supreme Pluot		+	+	+	+							+	

0 = Self fertile

+ = Successful cross pollination

Most plums are self fruitful. Exceptions are Satsuma and Golden Nectar, which require a different variety of Japanese plum for pollination; and Seneca, which requires a different variety of European plum for pollination.
